

## **MANAGEMENT POLICY**

The Club's policy aims to achieve the satisfaction of the members and users through the quality of the port and sports services offered.

The Club is committed to its environmental, social and economic environment, enhancing the positive impact from this point of view through the organization of services, activities and events that transcend its private sphere.

In order to achieve continuous improvement in action processes, the organization has an integrated management system based on the following strategic objectives, which are aligned with the sustainable development goals set by the United Nations for the period 2015-2030 :

- Maintain and improve, if appropriate, the quality of port facilities and equipment as well as services for members and users of the Port.
- Diversify and improve the offer of nautical services and activities through the Sports Area and promote the activity of the sports sections of the Club.
- Promote being part of the Club! Stimulate the life of the Club through the organization of sporting, social events and conferences, throughout the year, at regional, national and international level.
- Consolidate the Club's relationship with local and regional public organizations and institutions to promote nautical activity.
- Promote transparency in the management and participation of members in the governance of the Club.
- The economic sustainability and efficient management of the organization, its resources and assets.
- Reduce the impact of the Club's activity on the natural environment, contributing to its conservation.
- Have a positive economic and social impact on the area of influence of the port.

Club Management commits to this Policy, which is available to interested parties,

Raimon Roca Roig  
Managing Director

L'Escala, 5<sup>th</sup> June 2021.
